OUR CASTERS ARE LIFESTYLE
 诺贝脚轮，引领生活时尚

CATALOGUE 2023

ROBBY 诺贝 CATALOGUE 2023

Welcome to movement!

尽享移动乐趣!

诺贝五金制品有限公司始创于1992年，多年来专注制造外观和功能突破的脚轮产品，为不同行业的家具带来移动的便利，诺贝站立制造并以挑剔的品质为用户带来安稳使用感。成为客户可靠的合作伙伴！是家具脚轮设计与制造的领先者！

Robby is a leading designer and manufacturer of furniture casters, and was founded in 1992. Over the years, we have been dedicated to creating breakthroughs in both appearance and functionality of caster products, providing convenient mobility for furniture in various industries. Our meticulous craftsmanship and design ensure a stable and reliable user experience, making us a dependable partner for our customers. With our unique processes and designs, we have transformed the negative perception of Chinese products and become a leader in the caster industry.

诺贝欧洲发展于2014年，在西班牙设立分公司对接欧洲市场的客户，西班牙设计师团队每月定期在追求创新不断萌生出前沿的设计。而这些创新的设计除了美观还含有强大实用的功能。这使诺贝的品牌得到市场的肯定，并成为脚轮行业中的领导者，将灵感变为现实。

In 2014, Robby expanded its presence to Europe by establishing a subsidiary in Spain to cater to the European market. Our team of Spanish designers consistently produces cutting-edge designs through continuous innovation, combining aesthetics with powerful practical functions. This has earned Robby's brand recognition in the market and solidified our position as a leader in the caster industry. Robby casters are a testament to turning inspiration into reality and have garnered recognition among world-renowned caster brands.

诺贝从2011年开始导入德国莱茵(TUV) ISO质量管理体系目前使用版本ISO9001:2015, 这都保证诺贝生产有序, 精益生产。通过内部的ERP管理系统, 实现从订购到各种确认过程, 甚至仓储和物流, 都能线上完成。快速的信息交流, 确保所有订单源头可溯, 制程可控, 稳定质量和交期, 安心交付客户所托。

An efficient team is built upon an excellent management system. Since 2011, Robby has implemented the German Rheinland (TUV) ISO quality management system, currently using the ISO 9001:2015 version. This ensures that our production process is organized and lean, allowing us to trace all orders to their sources, maintain process control, and deliver high-quality products to our customers on time, giving them peace of mind.

诺贝是全国首家制定行业标准的脚轮企业，诺贝总结多年对各行各业移动家具的需求，结合欧、美、日，的行业标准，自主立项几十个检测内容，编制行业标准并落实执行，自设产品检测实验室，按产品的特性执行不同类型的测试，为行业提供多方面的使用认证，确保设计和品质共存的理念。公司产品达到 EN 12828 12529 BIFMA 5.1等测试标准。

As the only caster company in the country that has formulated industry standards, Robby has thoroughly analyzed the demands of moving furniture in various industries over the years. Combining industry standards from Europe, America, and Japan, we have independently developed dozens of testing criteria, implemented industry standards, and established our own product testing laboratory. Through different types of tests tailored to each product's characteristics, we offer multifaceted usage certifications to the industry, ensuring the coexistence of design and quality. Our products meet testing standards such as EN 12828, 12529, and BIFMA 5.1.

诺贝坚信材料环保，生产过程环保，产品才是真正的环保。2018年全面实施RoHS生产管理，保证来料100%符合环保要求，品质让客户无后顾之忧。

Robby firmly believes in environmental protection through eco-friendly materials, production processes, and products. In 2018, we fully implemented RoHS production management, ensuring that all incoming materials comply 100% with environmental requirements, leaving no worries about product quality for our customers.

企业愿景：改变世界对中国产品的不良印象。

Through our craftsmanship and dedication, we are reshaping the negative perception of "Made in China" and showcasing the spirit of skilled artisans to the world.

“Functional is better than beautiful because what works well endures over time”.
 Ray Eames.

这句话与诺贝的理念不谋而合，诺贝致力于提升产品功能性，另外我们也乐于为消费者提供独家设计，我们的产品，既美观又实用，是会沉淀在时光里的美物。

酷是我们的一款设计脚轮。因其市场需求巨大，我们衍生了一整个系列。查询我们的目录，你会发现各种颜色，尺寸和配件。

From Robby we agree, that's why we are pleased to inform you that our wheels are not only functional but also exclusive design pieces, so they will always work well and will remain in time.

Koo is a designer castor, and due to its great demand, we have created a whole family. Check out our catalog and discover its variety of colors, sizes, and couplings.

Having furniture with wheels is always a practical and versatile option. These furniture pieces, such as chairs, desks, or storage carts, offer convenient mobility that allows for easy rearrangement of the workspace according to changing needs. With our durable and resistant wheels, they can be effortlessly moved from one place to another, facilitating collaboration, flexibility, and space optimization.

Another advantage of furniture with wheels is their ability to facilitate cleaning and maintenance. By being able to easily move them, difficult-to-reach areas can be accessed for more thorough cleaning. They also make it easier to reorganize the office for deep cleaning tasks or design changes. Our Olym wheels are safe, strong, and uniquely designed. They are available in different sizes and colors, with or without brakes.

这个儿童房我们选用了蓝色,因为我们想表达平静,安宁和清新的感觉,蓝色可以抚平情绪,非常的赏心悦目。

为了搭配这种氛围,我们选择了设计款脚轮莱雅60,圆滑坚固的身躯,稳健安全,柔软贴心,灰色的配色也与背景完美相融。

Do you dare to decorate with color? Do the test and you will see that it has been a real success because the colors transmit many sensations, so depending on what you want to feel, you should choose the right one.

For this children's room, we have opted for blue, because we wanted to convey calm, tranquility, and freshness, it is a color that works as a balm for the mood and is pleasing to the eye.

Accompanying this environment, we selected our Laia 60 design wheel, with its rounded and robust body, it transmits security and provides softness to the environment, in gray to adapt 100%.

 了解此款脚轮更多资讯

Education has changed and nowadays we can choose different methods to educate both children and adults. With the emergence of new methods comes the need to evolve and adapt educational furniture, so furniture has been designed to accompany the different types of education.

Tables with wheels in the classroom are a trend and that is because they allow free configuration according to the needs of the teacher, they are also easy to move for the constant cleaning of the educational center. Laia is one of the best designs we recommend for this type of table. They are robust, resistant, and available in different colors and sizes, you can combine the option with or without a brake.

新的教育方式的出现, 对传统教具的变革也做出了新的要求, 新型教具也由此诞生。教室内使用可移动课桌是大势所趋, 其一, 教师可以根据课堂需求随意移动桌子, 其二, 可移动式教具为教育中心的日常清洁提供了巨大的便利。针对这类教具, 我们极力推荐我们的最佳设计-莱雅。这款脚轮坚固, 耐用, 有多种颜色, 尺寸, 有刹无刹两种可供选择。

Distraction is the worst enemy when it comes to studying or seeking concentration, which is why the space in which we decide to do it is very important so that it is as favorable as possible.

We must take into account the space and all the factors that compose it, the lighting, the ambient sound, the objects, the furniture, and the temperature.

Kelly will adapt to the environment thanks to its neutral and sophisticated design, a 125 mm wheel designed with great support capacity to move heavy furniture with a smooth and delicate movement.

"Less is more" and that's what we rely on to advise you not to complicate yourself to give your home a modern touch. Many times the best option is to get rid of some objects by replacing them with simpler ones or also modify the furniture we have a little. Putting wheels on a piece of furniture is already giving it a modern touch and Helen fulfills that function, an ideal wheel to start giving another look to your house. Helen has its body of Zamak and PA tread, it is also available with or without brake and has different types of coupling (plate, pin and metric) to adapt to wherever you want, with a support of 60 kg per wheel. A round of applause for Helen!

It is normal that until we have an auxiliary furniture with wheels we do not know how useful and necessary it is. Once this type of furniture enters our lives, it is impossible not to love it again, super practical and functional, to move everywhere and turn it into something multifunctional. With our Eva 60 swivel casters you will feel the fluidity and smooth gliding on your floor, plus its chrome cover will give your environment a lot of style and glamour.

Nowadays, furniture with wheels is widely chosen in educational centers with the aim of achieving different types of class composition in the same room according to the needs of each teacher. In addition, having all the furniture on wheels, both the chairs and the tables, is very practical when it comes to cleaning, since an educational center is a place that is cleaned several times a day. In this way, the cleaning sector will have it very easy and will save time and practicality by not having to move things dragging their own weight. Eva is one of our most chosen wheels for folding tables, this is due to its strength and quality.

How amazing is the moon! Every time there is a full moon we could spend hours looking at it and taking photos and there is always someone who warns us so that we can look at the sky and not miss out on that true natural spectacle.

Can you imagine having that moon in your baby's room? You will feel in space and an atmosphere of calm and good energy will fill you inside creating a beautiful space of tranquility.

In a space environment, our wheel SKY could not be missing, which is not an individual model, but behind we find an entire family with many different sizes, in neutral colors and gray like the moon.

ADVANTAGES | 特点

Remark: These three functional casters are to be purchased separately.

注: 此三种功能脚轮须分开采购。

在工作中, 空间的舒适性也有利于优化时间效率和员工福利。我们的脚轮犀牛是办公室的理想选择, 这得益于它的智能刹车。一轮三刹, 脚轮的移动完全在你的掌控之中。每个刹车位置都有不同类型的制动, 一种可以在你起身时使椅子保持完全静止, 一种可以让椅子保持连续自由移动, 一种可以在你坐下时刹住轮身。

他是一款能过3倍BIFIMA测试的轮子。

It is important to take care of the workspace to optimise time and wellbeing. Our Rhino wheel is ideal for the office thanks to its intelligent brake, a brake with three positions that you can fully control. Each position has a different type of brake, whether you want the chair to stop completely when you stand up, whether you want constant free movement or whether you want it to brake when you sit down.

Being able to choose and adjust things gives us a lot of freedom and comfort to work more efficiently.

In a shoot where time control is one of the most important factors, the performance of each area must be optimized. Everything, absolutely everything must be designed so that its performance is 100% because it would be a serious mistake, for example, wasting time wanting to record a scene and having to constantly go from the set to the preview screen, also generating discomfort in the Project Director. It would be very different to have the screen with a mobile support, which would allow us to move it to the place we need, thus saving time and comfort. In this image we have used our Elaine wheels because their 60mm diameter is ideal for this type of support and their bearing capacity is 40kg per wheel, always including the braking system to ensure the safety of staying still when desired.

When we start looking for cribs we are aware of the quantity that is on the market, for all tastes, and at all prices. A very important decision that is accompanied by our style and our priorities, will be a matter of weighing which is the model that best suits us and our baby. If you decide on a designer crib it is because you have fallen in love and all the requirements have been fulfilled, if you are one of those who take care of even the smallest detail so that everything is perfect, then Ivy is the perfect wheel, made of polypropylene and its band in TPE will allow a safe sliding and without marking the floors. Thanks to its 60mm diameter, it is a strong and resistant wheel, its capacity per wheel is 40kg, available to apply the Silence System, a patented system to avoid annoying noises.

We continue Christmas shopping to decorate our homes, companies, or workspaces and put them in tune with the time of year, because although many of us deny these dates sooner or later we end up giving in and getting infected with this festive spirit, after all there is always a reason to celebrate.

While we were setting up this scene we have noticed that Lisa has been great with her semi-industrial style, with its iron body and aluminum wheel it complements perfectly, the ideal pair for exposed brick walls and pipes. A different wheel that stands out from the rest due to its slim body and is available with or without a brake.

没有什么比传统更加美好吧？传统的事物总是能让我们想起童年和上一代的人们。

拥有传统给我们一种归属感，给我们独特而难忘的时刻，尤其是当我们的经历成为过去时。怀念传统是为了，就算时过境迁，现在依然将那些已经不在的人和事记在心里，并快乐地活在当下。

传统的魔力在于，每一代人都贡献了一些新的东西，并使之成为他们自己的。

露西脚轮可以陪伴你创造变革和改变传统，和你一起塑造新的回忆，激发你新的灵感。它的半工业风格，轮身极具设计感，镀铬质地非常适合改变复古家具的风格。

What is more beautiful than traditions? The ones that remind us of our childhood and the generations before us.

Having traditions gives us a sense of belonging, creates unique and unforgettable moments, especially when new members join in. It is a way of remembering in the present those who are no longer with us and living them with joy. The magic of a tradition is when each generation brings something new to make it their own.

Lucy is ideal for creating change and transforming traditions, for restoring memories and accompanying new ideas. Its semi-industrial style, its sleek chrome body is perfect for changing the style of a vintage piece of furniture.

提到中国式娱乐, 不得不提麻将室。随着时代的发展, 麻将室的装修愈发精致, 而传统的麻将桌也增加了自动洗牌的功能, 安装了脚轮, 实现了麻将桌轻松移动的新概念。

在麻将桌的脚轮选取方面, 我们推荐“玛丽亚”。红古铜支架, 全黑胶轮可搭配红木色为主调的麻将桌; 50mm的脚轮直径, 让麻将桌的高度恰到好处; 脚轮带有的TPE软包边更令麻将桌移动时的静音效果达到极致!

Original Mahjong is an ancient Chinese board game that is played with similar pieces but under a different concept. The original game is played with 136 or more thick blocks of bone and bamboo, usually by four people. Due to its great success, clubs and competitions have been created and it has been exported to the rest of the world, particularly to the West from the 1920s and years later due to its popularity and influence, it was spread throughout the world through the internet. Currently, even though most of them are made with plastic, they continue to be made, as was done.

in ancient times, true works of art in different materials. To accompany the history of this game we have decided to use our Maria wheel model, a wheel with a vintage style achieved thanks to its chassis that is made of iron with a premium copper finish and its body is made of polypropylene and its tread. In TPE with a single diameter of 50MM.

无承重刹车

开放型的空间使人专注于当下，摆脱不必要的干扰。白色，米色，灰色和黑色等中性柔和色调总是给人带来平静和安宁感，让人静坐等待时也可以放松身心。

可移动式餐车无疑是多功能型家具，在开放型空间自由移动，灵活放置，是所有极简主义环境的理想选择。

在这类场景，我们选择推荐哥顿，一款拥有黑色饰面和镀铬部件的脚轮，优雅独特的风格，为其配置的家具有增添更多别致特色。

This type of space allows the mind to feel free from unnecessary distractions and focus on the present. Neutral and soft tones such as white, beige, gray, and black are colors that convey a sense of calm and tranquility, which is perfect for relaxing while waiting.

A wheeled pouf is a versatile piece of furniture that allows for mobility and flexibility in space, making it ideal for any minimalist environment.

For this scene, we have chosen our Gordon wheel, a wheel with a black finish and a chrome part that adds a touch of elegance and distinction to any furniture it is added to. In addition to its attractive design, this wheel offers great functionality and durability.

毕达哥拉斯说，秩序是房屋中最美丽的装饰品，我们深有同感，尤其在迷你屋中，所有的元素堆积，各有所用，这个时候秩序就是最好的装饰物。

在迷你屋中，没有什么物品是随机摆放的，所有的一切都是精挑细选，以实用性为主。这个时候我们的埃里卡脚轮就派上用场了，在小空间内发挥大作用。只需四个轮子，就可以让你的家具物尽其用，随意移动。

We fully agree with Pythagoras, the order is the most beautiful ornament in a house and it is even more so in these models of mini houses, where each element will have to occupy its place to have an operational pace.

Here there is nothing random, everything is carefully chosen and what stands out is the practicality of each object. We chose our Erica wheel. Get all its benefits and transform your furniture into pure movement with only 4 wheels.

Each object in our home should be chosen with care to avoid the accumulation of unwanted elements that do not match our style.

They should also have a clear function and to maintain order, it is recommended that each object always has its place. Castors such as Emma II will fulfil their function perfectly and will also be part of the style of the home without breaking the rules. Their transparent material blends in perfectly.

They are available in different sizes and you can choose with or without a brake.

An ideal castor for furniture that requires constant movement, often used on side tables or semi-outdoor trolleys. Its anti-threading feature makes it even more special as it will prevent any kind of dirt from getting caught in the castor, especially any kind of hair.

Our most standard and chosen model in this category. It is available in grey for more neutral spaces and in red for those who want a touch of colour.

Discover its wide variety of sizes and fittings so that you can use the same family in all your furniture, thus achieving a perfect harmony.

"Dare to colour and change your perception".

A fully rotating semi-industrial wheel allows you to move your kitchen and thus have the total freedom to take it wherever you need without any effort. If you have guests at home and the day is nice, you can move your kitchen so you can be in the same space as the guests, avoiding having to cook far away from everyone and miss a large part of the meeting. You can choose with or without brake or combine them, available in 75mm and 50mm and with a 60x60 plate.

If one thing is clear, it is that these convertible cribs are robust, practical, and will accompany your baby as he grows, as they adapt to his different stages and needs. If you opt for this crib it is because you choose to have everything resolved in the long term, without a doubt a great option to furnish our baby's bedroom. The convertible crib that we have chosen for this scene includes a trundle bed, changing table, and chest of drawers that will later be transformed into a normal trundle bed with a desk and nightstand. It is perfect for small spaces, if you already have another daughter or son or if you frequently receive visitors, it is also a long-term and very practical solution. The wheels that we see in the trundle bed are the 50 mm Moonlight, ideal for delicate floors due to its TPE tread, with a load capacity of 60 kg per wheel and super silent.
